

Statement of Brook Hiddink: Free Workshop Registrations and Attendance

I, **Brook Hiddink**, founder of High Ticket (BERH Stores & Consulting Inc. - FZCO), make this statement to document a claim used in High Ticket's advertising: "over ten thousand people have been through the free training" (also worded "helped thousands of people"). The exhibits below are unaltered copies of the records described.

1. Between **December 1, 2024 and September 22, 2026**, **352,454 people registered** for High Ticket's free online workshop and **109,482 attended**, according to the audience report of the webinar platform that hosts it (Exhibit A).
2. Registration or attendance does not mean that a person completed any training, bought a program, launched a store or earned any income.
3. Where advertising cites the number of people who have been through the free training, it uses these figures or a rounded figure below them, with the date they were captured. The figures are refreshed from the platform when reused.

Exhibit A — Webinar platform audience report, December 1, 2024 to September 22, 2026

I confirm that the statements above are true and accurate to the best of my knowledge and belief, and that the exhibits are unaltered copies of the records described, with personal and pricing details blacked out where noted.
